# How to download Role4All

- Download Pharo 4 http://pharo.org/download
- If it is necessary add a proxy:
  - Open settings

  - Configure proxy

- Download into Pharo4 the Roll4All configuration file

```
Gofer it
    smalltalkhubUser: 'ENSTABretagne' project: 'Role4All';
    configurationOf: 'Role4All';
    load.
```

- Wait 1-2 min (download the class ConfigurationOfRoll4All)

- Load the last stable version of Roll4All

```
(ConfigurationOfRole4All project version: #stable) load
```

- Wait 10-15 min ( Download Roll4All and all the dependency )

- And it's ok, you can use Roll4All (see the tutorial)
